

BALLOON KYPHOPLASTY

A MINIMALLY INVASIVE TREATMENT FOR
VERTEBRAL COMPRESSION FRACTURES

SYMPOSIUM

SUNDAY, JULY 27TH 15:00-17:00

LOCATION – OAHU ROOM, RITZ CARLTON HOTEL

Hors d' oeuvres and Drinks will be served

You are cordially invited to attend the above symposium which will be held alongside the Spine Across The Seas Congress in Maui, Hawaii.

Kyphon is currently pursuing market entry activities in Japan, and your input on the value and efficacy of balloon kyphoplasty would be much appreciated.

The symposium will be conducted by Prof. Alexander Hadjipavlou and Dr. Dennis Crandall.

Prof. Hadjipavlou is the Director of the Orthopedic Surgery Department at the University of Crete, Greece and has expertise with both kyphoplasty and vertebroplasty. He has performed over 100 kyphoplasty procedures for both osteoporotic and traumatic fractures since 2001.

Dr. Crandall is an orthopedic spinal surgeon in Phoenix, Arizona, where he also serves as faculty for the Phoenix Orthopedic Surgery Residency Program. Dr. Crandall is has been performing kyphoplasty in the United States since 1999 and is one of the original surgeons who helped to develop the procedure as it exists today. Both Prof. Hadjipavlou and Dr. Crandall are faculty for the Kyphon Surgeon Training Program.
